

Please return to Mrs. Van Norman by October 5th.

Permission Request for a Public Student Blog:

Students create an online electronic portfolio and post projects online for people to view. If it is okay for your child's work be public please sign below. If you do not want it public, they are still required to make a blog it will just be password protected and private. Please know that I do monitor all incoming comments are students do not have way to contact people outside of school by means of their blog. One of the reasons the blogs are made public is because an authentic audience improves the quality of work students complete.

My child, _____ **MAY** have a public blog.

Permission Request to Use Photos Online:

Students often request to use pictures they take or educational videos they have made. The problem is students want to be in the pictures or videos they create. These videos or projects may be posted on-line in their blog for others to see. I do not have a problem with them posting pictures or videos provided they have parent permission, the pictures and videos are appropriate, and there is **NO PERSONAL INFORMATION** other than their first name and general information on their blogs. However, as a parent this is your decision to make. There please select from an option below.

Option 1

My child, _____ **DOES HAVE** permission to use personal photos/videos on their blog.
